Moradabad; Uttar Pradesh; 19th December 2017

This was graced by Mr. Rajesh Kumar Singh, Commissioner, Moradabad; Mr. Vinod Agarwal, Mayor, Moradabad; and Mr. Ashish Srivastava, SP City, Moradabad, and saw the presence of Mr. S.P. Khosla, Chairman, Moradabad Charitable Trust; Mr. O.P. Manchanda, Trustee, Moradabad Charitable Trust; Mr. Satpal Pugla, Secretary, Moradabad Handicraft Exporters Association; Mr. Rohit Dhal, Chairman, Young Entrepreneur Society (YES); Mr. O.P. Prahladka, Chairman, EPCH; Mr. Ravi K Passi, Vice Chairman, EPCH; Mr. Rakesh Kumar, Executive Director, EPCH; and EPCH COA members.

With an objective to keep up the demand of Indian handicrafts in the competitive global market as well as further improve its niche, EPCH set up a Handicrafts Technology Mission (HTM). This is dedicated to developing and inducting relevant technology as per needs & requirement of different handicrafts clusters. The first meeting of this HTM was held in New Delhi in which technical experts from different sector were invited for a detailed discussion. In continuation to this, EPCH organised a seminar on Moradabad Cluster Technology & Research Development on 19th December 2017 in the metalcrafts city.

A glimpse of the inauguration and Mr. Rakesh Kumar, Executive Director, EPCH, addressing the gathering

On the occasion, Moradabad Charitable Trust & Health Research Centre (MCT&HRC) organised a medical camp for artisans. As part of its CSR initiatives, EPCH donated an ambulance to the Centre

While addressing the gathering, Mr. Rakesh Kumar, Executive Director, EPCH, expressed his hope that member exporters of Moradabad region would adopt technology in their manufacturing processes and the Handicrafts Technology Mission which has been set up for this endeavor would be able to achieve its objective. Further, during the seminar, Dr. Bhupesh Sharma, Scientist, Sriram

Institute for Industrial Research, made a presentation on UV coating technology; Mr. S.P. Sharma of M/s Creative Tools spoke on 3D printing and rapid prototyping; and a presentation on Physical Vapor Deposition Coating (PVD) was made by Mr. Shivender Saxena of M/s A J Engineering. A live demonstration of prototyping through 3D machine was also carried out. The participating exporters took keen interest in the presentation and asked questions related to the usages of the

EPCH felicitates member exporters from Moradabad- Mr. Vinod Khanna and Mr. Najmul Islam with 'Man of Charity Award' for their contribution to the charity for artisans and their welfare

technology, its adaptability in metalware sector, pricing, acceptability in international market, etc.
